CITY OF DOWNEY

PRESS RELEASE

Lynx Grills, Inc. Relocates to Downey

Downey, CA, June 21, 2013: Lynx Grills, Inc., a luxury outdoor kitchen equipment company, will be relocating their manufacturing business to a larger facility located at 7300 Flores Street, in Downey. Their new building is 125,000 square feet and will employ approximately 200 people. Since its launch in 1996, Lynx has set the standard for design, innovation and engineering excellence, introducing new technologies and custom features to ensure an outstanding, outdoor living experience for consumers. In addition, the company's newest product line, Sedona by Lynx, is Home Depot's premier outdoor kitchen line.

"Downey is a business-friendly City and we are always eager and excited to welcome new businesses to town. New businesses mean new jobs and new opportunities for our community. We extend a warm welcome to Lynx Grills and thank you for making Downey your new home," said Mayor Mario A. Guerra.

Over the next three years, Lynx expects to double its workforce to over 400 employees. Its new factory will also have four times the production capacity of existing facilities. "The City of Downey is an ideal location for Lynx because of its proximity to transportation hubs and access to a talented and educated workforce. We look forward to many productive years at our new factory," said Lynx CEO James Buch.

Lynx Grills is expected to open its new facility this Fall.
